Follow Up Reports (Routine and Expedite)

Filled orders being packed: (7220246.8)

This report is produced monthly and lists all orders, in part number sequence, that is in the packing, invoicing and shipping stage.

Branch open order follow up report: (7220254.1)

This report is produced monthly and lists all open orders, in part number sequence. If the part is in stock, "being filled" printed in the order status column indicates the order has been released for pick. All other orders appearing on this report can not be released for pick at this point in time, (the date of report) for one of two reasons:

1. Not sufficient stock to fill the order
2. Part not in stock

Weekly packing report: (7220221.01)

This report is produced weekly and lists all orders that have been packed and invoiced during the preceeding five working days (from date of report).

Above reports will be shipped with first U.X. order after printing or airmailed no later than the first Friday after printing.

Follow Up On Orders

Routine and Expedite:

- Step 1: Check latest weekly packing report. If the order appears on this report, alert your customs broker or importation department. The box number is identified on this report.
- Step 2: Check filled orders being packed report. If the order appears on this report the part(s) has been or will be packed and shipped within 10 days. Wait for packing report (Step 1).
- Step 3: Check open order follow up report. If the order appears on this report the part(s) has:
1. Been released for pick, ("Being Filled") and will be picked and packed within 10 days.

OR

2. Not been released for pick due to insufficient or no stock.

In this case recheck your requirements for this order. You may have obtained the part(s) thru other means and the requirement no longer exists in which case the order should be cancelled.
