Sorcerer Computer System

The Sorcerer Computer is a completely assembled and tested computer system. Standard configuration includes 63-key typewriter-style keyboard and 16-key numeric pad, Z80 processor, dual cassette I/O with remote computer control at 300 and 1200 baud data rates, RS232 serial I/O for data communications, parallel port for direct hard copy printer attachment, 4K ROM operating system, composite video of 64 char/line, 30 line/screen, 128 upper/lower case ASCII set and 128 user-defined graphic symbols, operation manual, cassette and video cables, connection for S-100 bus expansion.

Description	Model Number	Retail Price
Sorcerer Computer 16K RAM	DP 1000-2	$ 1295.00
Sorcerer Computer 32K RAM	DP 1000-3	1395.00
Sorcerer Computer 48K RAM	DP 1000-4	1495.00

Sorcerer Computer Expansion
16K Memory Expansion Kit

Component parts and instructions to add-on memory within the Sorcerer computer enclosure. Maximum RAM expansion internally is 48K bytes.

Description	Model Number	Retail Price
16K Memory Expansion Kit	DP 10001	$ 160.00

S-100 Expansion Unit

A completely self-contained 6-slot chassis styled in the Sorcerer fashion with S-100 translation logic and interconnect cable.

Description	Model Number	Retail Price
S-100 Expansion Unit	DP 1004	$ 419.00

Sorcerer Computer Attachments
Video Display Unit

A 12" professional CRT with 20MHz bandwidth for high resolution and P31 phosphor styled in the Sorcerer fashion. Connects directly to Sorcerer computer with video cable supplied.

Description	Model Number	Retail Price
12" Video Display	DP 1005	$ 499.00

Display/Disk Unit

Dual floppy disk with 630K bytes of formatted data storage on 5-1/4" diskettes. A 12" CRT display with 20MHz bandwidth and P31 phosphor all housed in a swivel-based enclosure that connects directly to the Sorcerer computer keyboard enclosure. CP/M operating system, Z80 assembler, Text Editor, Linking Loader and Microsoft disk extended BASIC are included.

Description	Model Number	Retail Price
Display/Disk Unit	DP 6300	$ 2995.00

Floppy Disk Subsystem

120K Bytes (Dual Density) per disk (Formatted), independent interface logic expandable to four drives. Uses 5-1/4" floppy disks, plugs directly into Sorcerer's 50 pin edge connector. Includes CP/M Disk Operating System and Microsoft Disk Extended BASIC.

Description	Model Number	Retail Price
Floppy Disk Subsystem	DP 6400	$ 1150.00

Floppy Disk Add-On

120K Byte (Dual Density) per disk (Formatted), uses 5-1/4" floppy disks, Daisy chains to Floppy Disk Subsystem with cable included.

Description	Model Number	Retail Price
Floppy Disk Add-On	DP 6401	$ 795.00

Sorcerer Computer Software

ROM PAC™ Cartridge Software

Description	Model Number	Retail Price
Standard BASIC Pac	DP 2002	$ 99.00
Development Pac	DP 2003	99.00
Word Processor Pac	DP 2004	199.00

Applications Software

Description	Model Number	Retail Price
Micro Biz	DP 7000	$ 695.00
Micro Home	DP 7100	$ 29.95

Systems Software

Description	Model Number	Retail Price
CP/M ROM Pac Disk Interface Routines, Z80 Assemblers, Text Editor, Disk BASIC	DP 7200	$ 445.00
Development Pac Disk Interface Routines	DP 7210	99.00
Word Processor Disk Interface Routines	DP 7220	99.00
CP/M	DP 7240	145.00

Programming Languages

Description	Model Number	Retail Price
Extended Cassette BASIC	DP 7300	$ 49.00
Extended Disk BASIC	DP 7310	300.00
FORTRAN	DP 7320	750.00
COBOL	DP 7330	1000.00

Sorcerer Computer Accessories

Description	Model Number	Retail Price
EPROM Pac	DP 2001	$ 49.00
Technical Manual	DP 5003	11.95
Software Manual	DP 5008	24.95
Serial/Cassette Cable	DP 4005	98.00
Parallel Data Cable	DP 4003	35.00
