

RGB Monitor 100

8CM536

14" diagonal RGB Color Monitor 100

- 17% larger screen than standard 12" monitors
- Accepts RGB TTL, RGB Analog inputs
- Green raster display switch
- Etched faceplate
- Dark glass CRT
- 800 dots resolution (horizontal)
- 350 lines resolution (vertical)
- Displays 2500 characters, 100x25
- Line level audio input
- Two year parts/labor warranty

MAGNAVOX PROFESSIONAL

8CM536 RGB Color Monitor 100

17% Larger Screen than Standard 12" Monitors • 14" tube provides larger screen size without an appreciably larger footprint.

Accepts RGB TTL, RGB Analog Video Inputs • makes monitor compatible with both standard RGB video signal types.

Green Raster Display Switch • emulating monochrome performance for text applications, this switch disables the monitor's ability to display anything other than green light — a feature normally found on more expensive products.

Etched Faceplate • the CRT face is treated with a special glare-reducing process to help eliminate eye fatigue caused by reflections from the monitor face.

Dark Glass CRT • the tube glass used in this product incorporates a special dark background material which helps to improve image contrast and reduce operator eye strain — a feature normally found on more expensive products.

800 Dots of Resolution (Horizontal) • in RGB, the monitor system will display 800 dots of image resolution on each scan line, the minimum number required to display 100 characters.

350 Lines of Resolution (Vertical with Interlace) • when used with a graphics card producing an interlaced scan signal, the monitor will display 350 scan lines of information.

Displays 2500 Characters, 100 × 25 • in an 8 × 8 matrix, the monitor system can display 100 characters per line, 25 lines per screen.

Line Level Audio Input • provides convenient connection to a VCR or any device which generates a line level audio signal.

Image Size and Position Controls • located on the back panel, these controls allow the user to adjust both the size and position of any image displayed on the CRT, assuring compatibility with computer and other video devices.

Built-in Tilt Stand • allows the user to adjust the viewing angle to suit personal preference.

Two Year Parts and Labor Warranty • solid evidence that this is a reliable product, nationally supported by Magnavox.
