The Microsoft Solution Series

Microsoft Solution Series products are designed to focus on the everyday needs of individuals and growing businesses. These exciting programs, based on the Microsoft Windows graphical environment, help you produce professional-looking results every time you run them. Plus they're easy to learn and fun to use.

The Series products include Works for Windows, a combination of the tools you'll use most often in one easy-to-use program: a database, a spreadsheet, a word processor, plus drawing, charting, and reporting; Publisher, a desktop publishing program that lets even first time users create quality publications like newsletters, flyers, and calendars; and Money, a personal finance program that helps you to keep track of your business and personal checking accounts.

Microsoft Solution Series programs are designed to be easy for you to put to work the first time you use them. And you'll find you use them more and more as your business grows.

MICROSOFT PUBLISHER: PROFESSIONAL QUALITY PUBLICATIONS MADE EASY

As part of the Solution Series, Microsoft Publisher for Windows makes it easy to create quality publications, even if you've never used a desktop publishing product before! With Publisher you can create newsletters, flyers, business forms, invitations, and more, in the time it normally takes you to write a letter. It's easy with the help of Publisher's PageWizards. PageWizards are interactive design guides that ask you questions about your design preferences and then create the basic publication for you.

Jazz up your publications with over 120 black and white and color clip art pictures, or the more than 100 Border Art choices. And with WordArt you can create special fonts and font effects like printing top to bottom, slanted sideways, or in a button!

Microsoft Publisher helps you make a good first impression.

Suggested Retail Price **$199**

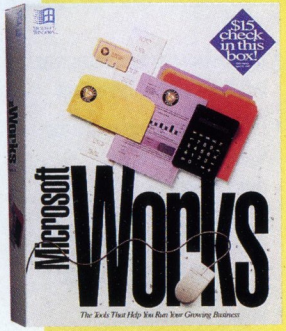
MICROSOFT WORKS FOR WINDOWS MAKES SHORT WORK OF THE MANY TASKS YOU DO EVERY DAY



Works

Microsoft Works for Windows contains the tools that help you run your growing business in one remarkably easy-to-use program. As part of the Microsoft Solution Series, Microsoft Works for Windows makes it easy to write correspondence and reports, calculate and chart financial data, build mailing lists, draw diagrams and logos, and much more.

The Works tools work together and that means it's easy to copy a chart into your business proposal, or send an announcement letter to all of your customers. And the tools all look and work the same so once you've learned how to use one of them, the others are a snap!

The Toolbar in Microsoft Works for Windows makes the functions you use most often, for example underlining, bold, italics, as well as a spell checking thesaurus, as easy as clicking a button.

Works for Windows also contains special help for people who are short on time! WorksWizards are interactive guides that ask you questions about the task you are trying to accomplish (mail merge, mailing labels, and creating an address book) and then does the work for you! Works also comes with extensive online help and lessons.

Works makes running a business a lot easier!

Suggested Retail Price **$199**

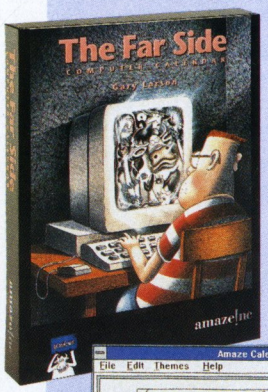
NOW YOUR COMPUTER CAN TAKE YOU TO THE FAR SIDE

Now the amazing, bizarre world of Gary Larson's Far Side is available for your computer. Introducing the Far Side Computer Calendar.

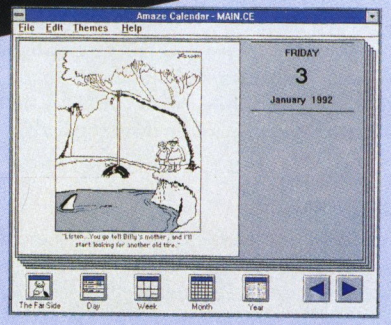
You've seen the Far Side off-the-wall calendars where each day brings you a new dose of Larson humor. The Far Side Computer Calendar is that and more. It's a daily cartoon combined with a fully functional calendar program.

But this isn't just an ordinary calendar, it starts when you want it to. January 1. May 17. October 9. Whenever you load the program you get 365 cartoons—a year full of fun. Plus you'll never have to buy another calendar because this one will keep going to the year 2000.

Taken from the vast Larson library, this software includes Far Side cartoons different from the 1992 paper calendar line. It also has a multi-featured organizational calendar that offers four views. Day. Week. Month. and Year. Each can be edited and printed out in different sizes for your notebook.



From one screen you can edit date, time and appointment information as well as make notes to yourself. You can easily program recurring events. Audio alarms can be set to remind you of important appointments. Each function is accessed through animated icons that provide a graphical overview of your day. And for the first time on computer you'll see Far Side favorites come alive in animation making random guest appearances to break up your day.



When you register we will send you a special premium and the Amaze Catalog so you can order your Far Side refills for years of laughs..

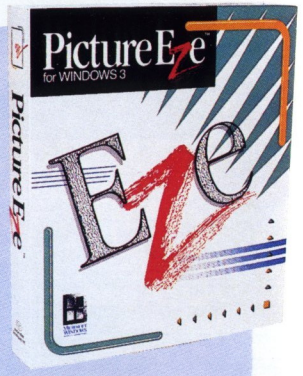
PICTUREEZE MAKES IT EASY TO PUT GRAPHICS INTO YOUR APPLICATIONS



Use PictureEze when you need to import a graphic image into one of your Windows or DOS applications. PictureEze supports more than 50 of the best selling applications including all the popular Word Processors, Desktop Publishers, and Paint and Draw programs. And when you use PictureEze, you don't need to search through your manuals to find which file format your application requires. Just click on the name of your application and PictureEze will convert the image to the best format for your application automatically. Of course, if you want to specify a particular file format in detail, PictureEze allows you to do that too. It supports more than 60 distinct file types.

PictureEze also allows you to enhance the image. Using PictureEze you can rotate, mirror, or flip the image. Adjust the color, brightness, and contrast. Crop the image or change its size. Stretch it or shrink it. Reverse the color to produce a negative. Reduce the color content to transform a color image into a high-quality gray-scale image. PictureEze gives you control and makes image enhancement easy.

ORDER NOW AND SAVE $50

For a limited time Windows users can purchase PictureEze for only $99. Call toll free for immediate shipment.

PictureEze solves many of the incompatibility problems you encounter when you transfer graphic images from one application to another.

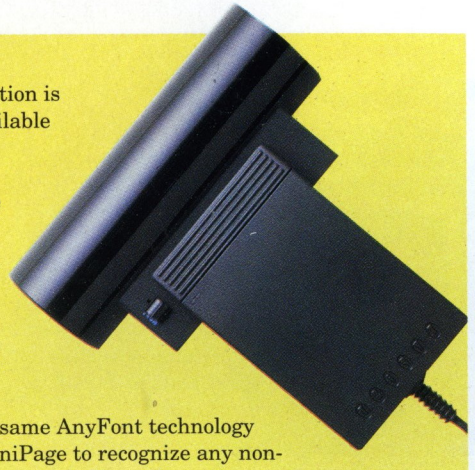
THE ULTIMATE TYPING MACHINE FOR WINDOWS USERS



The Typist Plus Graphics solution is complete - the finest OCR available and complete image editing software. This Macintosh, Windows and DOS compatible hand-held scanner can read text and numbers directly into your wordprocessor, spreadsheet or DTP application. And now Typist can scan and edit images with The Graphic Editor.

Typist Plus software uses the same AnyFont technology as Caere's award winning OmniPage to recognize any non-stylized fonts from 6 to 72 points (including column formats and spreadsheet numbers). Scan hundreds of words per minute at true 300 dpi resolution to achieve maximum accuracy.

The new Graphic Editor software creates full-tone - 256 shades of gray images in software (only available on Macintosh and under Windows for the PC). The Graphic Editor lets you scan and enhance photos, artwork and illustrations using intuitive image processing tools in either grayscale or black and white. Caere's proprietary LaserGray technology optimizes your output for laser printers to let you print halftones that look like photographs.

APPOINTMENT BOOK, TO-DO LIST, POCKET SECRETARY, AND MORE—ALL IN ONE.

SHIPMENT EXPRESS SERVICE

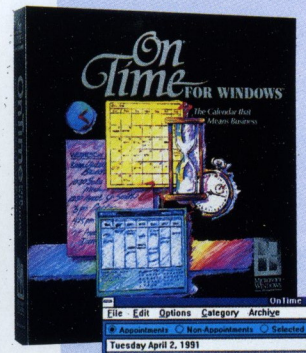
OnTime® for Windows

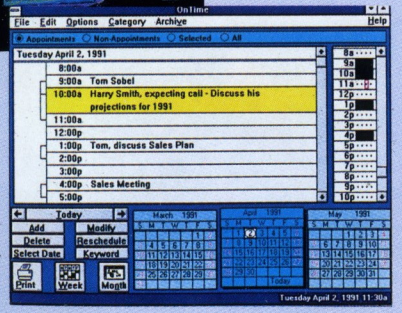
Just about any business management book will tell you that the best way to get ahead is to use your time wisely. And now you can unlock valuable time management secrets with OnTime for Windows.

- **Plan your time with an easy-to-use lifetime calendar and to-do list manager**
- **Remember critical dates and events**
- **Print pocket-size calendars and to-do lists**

This comprehensive program is a combination appointment book, to-do list, pocket secretary, desktop planner, tickler file, and alarm clock. Use it at your desk to plan your time and prioritize your work. Then print handy calendars to take with you.

You can see your time availability and conflicts at a glance. So you can concentrate on deciding how to best use your time—not the mechanics of keeping track of it.





The lifetime calendar lets you enter dates and events all the way through the year 2079. Simply click on any blocked out time and immediately see the details of the appointment.

Get an instant overview of any week with days shown in hour, 30 minute, or 15 minute increments. Enter recurring events once and let OnTime do the rest. Create a to-do list and OnTime automatically rolls over the items until you mark them done. Set OnTime alarms and you'll never be late for another meeting. There's even a network version to help an entire group become more productive.

MATHTYPE. THE BEST THING FOR WRITING EQUATIONS SINCE CHALK!

Don't torture yourself by using a word processor or some inadequate system to write math equations! MathType is the program you need when including math in your papers, tests and presentation materials. MathType gives you the power to create typeset-quality math equations in a way no word processor can match. Just "cut-and-paste" equations into any Windows-based program. It's the perfect companion to Microsoft Word, Works, or Publisher for Windows, or any other Windows-based word processor or page layout program.

Equations are created using simple point-and-click techniques - there are no command languages or code words to learn. Each math symbol is added to your equation by simply choosing its icon with the mouse or keyboard. MathType's WYSIWYG interface offers over 175 math symbols conveniently arranged in pull-down menus. Plus, MathType automatically formats equations - the rules of math typesetting are applied as you type. With MathType, equation writing is as easy as filling in the blanks!

Now HP LaserJet III owners can get all the scalable fonts they need with the Super Cartridge 3/*Professional Edition* or *Creative Collection* cartridge. The Super Cartridge 3 Series from IQ Engineering gives you the choice of 2 scalable cartridges, for a total of 106 typefaces—all without additional printer memory required.

Super Cartridge 3/*Professional Edition*—Now Just $299

The *Professional Edition* has a super selection of fonts—essentially giving any LaserJet III series printer equivalent typefaces for all 35 standard PostScript faces, plus an added bonus of 15 type styles. With classic serif faces like IQE's version of Schoolbook and Garamond, to decorative typefaces like English Blackletter and Chancellery, to fixed pitch Prestige Elite and Courier, the *Professional Edition* cartridge has a typeface that's perfect for all your applications.

Super Cartridge 3/*Creative Collection*—Now Just $299

IQE's new *Creative Collection* cartridge provides 66 scalable typefaces from 31 different type families—more than any other font cartridge on the market. This new Super Cartridge combines a unique set of display faces with a large selection of serif and sans serif text fonts for the greatest versatility. To make it even more practical, most *Creative Collection* fonts are Type 1 compatible, so you can prepare your documents using your favorite software, check your work on your Series III printer, and then send it to a service bureau if Linotronic output is needed.

Better still—both cartridges are great for Windows. They come with custom drivers for easy installation and use with all your Windows applications. IQ Engineering even supplies Windows screen fonts.

And best of all, buy now and save $100 off the retail price, exclusively from AB Distributing, on both the Super Cartridge 3/*Professional Edition* and *Creative Collection* cartridges. CALL AB DISTRIBUTING NOW at 800-874-3300.

WHAT GOOD IS A COMPUTER THAT PROCESSES MILLIONS OF WORDS A MINUTE, IF YOU CAN ONLY TYPE 10?

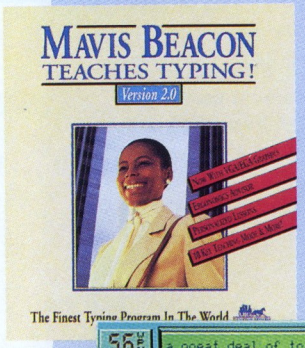
Mavis Beacon Teaches Typing!® Version 2.0 for Windows

Whether you've always wanted to touch type, just brush up your skills, or inspire your child, Mavis Beacon Teaches Typing is the only Windows typing program you should consider. Here's why.

The secret ingredient.

Mavis Beacon is more than the world's fastest typist. She's fun. Kids practice riddles. Adults cut their teeth on exotic extracts from the Guinness Book of World Records.* After each lesson, you'll play arcade-style games as a reward.

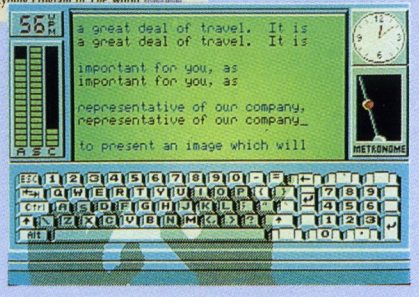
The Toolworks® Desk Reference, an electronic version of the New York Public Library Desk Reference, a $69.95 Value FREE with the purchase of Mavis Beacon Teaches Typing V2.0 (Windows) or World Atlas 3.0 (Windows) from The Software Toolworks.



Our new 10-Key Teaching Mode makes learning the numeric keypad as easy as touch typing. Choose between QWERTY or Dvorak keyboards. We even offer sharper 16-color VGA/EGA graphics (CGA, Hercules, or text modes, too). Mavis makes learning comfortable, too, with ergonomic advice every step of the way.

Learn quickly and easily. Order today because no one teaches you better than Mavis.

- Learn 10-Key quickly and easily with the new Grocery Checkout game!



- VGA/EGA 16 color graphics
- Stunning fully detailed 2D and 3D graphics
- "Guide Hands" type with you to show perfect technique
- Personalized practice sessions based on your patterns and mistakes.

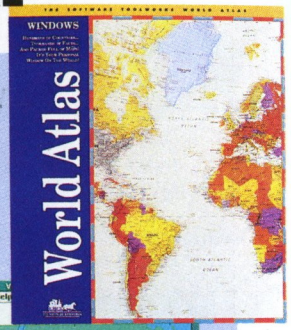
NOW THAT YOU HAVE WINDOWS, YOU CAN SEE THE WORLD LIKE NEVER BEFORE



The Software Toolworks World Atlas 3.0 for Windows

Need to find out a little bit about our world? You could juggle encyclopedias, almanacs, maps. But who has space-or time-for all those expensive reference books?

The Software Toolworks World Atlas for Windows turns your PC into a window on the world. Access high-resolution maps-in seconds. Sense the heartbeat of a country with charts and graphs on people, crime, economics, and more.

There is a lot more to our World than maps.

Fact book. Almanac. Atlas. World Atlas is a one-stop reference for students, business people, travelers, educators, and librarians. With research on over 300 topics such as exchange rates, transportation, agriculture, GNP, crime rate... Plus 240 detailed VGA color maps of the world, countries, cities, even oceans!

New information, more features, more ways to put the power of Windows to work for you. When you've got the World, what more could you ask?

Some of the great features you'll find only in World Atlas for Windows:

- Over 4,400 statistical maps.
- Create new categories or sub-topics and add your own data.
- Note pad: Add your own notes to any map!
- Copy and paste maps, graphs, statistics and data to other Windows files
- Place map markers on any map to designate points of interest.

NEW SHOEBOX FOR WINDOWS:

The ten-year old appointment calendar, with more than 200,000 DOS users, has been totally rewritten for Microsoft Windows, according to Roland D. Joffe, Vice President of R+R Associates, Inc., marketing agent for SHOEBOX.

Among its new features are the ability to see more than one appointment schedule on the screen at one time.

In a network environment, users can schedule group appointments and send messages to each other with requests for acknowledgement. A visual alert lets users know when messages have been received and when appointments have been scheduled for them by others. A single click on that alert and the specific message or appointment is displayed.

SHOEBOX is currently installed on PC LANs in many branches of both the US and Canadian governments, in large and small companies throughout the world and in most branches of the US Air Force.

R+R Associates, Inc., a ten year old consulting and marketing company, distributes four SHOEBOX models:

SHOEBOX 1 Plus for single users .....**$95 retail**

SHOEBOX 2 for many appointment schedules on a single PC .....**$195 retail**

SHOEBOX 3 for many workstations on a single LAN .....**$350 retail**
(plus $10 license per workstation.)

SHOEBOX/Windows .....**$395 retail**
(plus $10 license per networked workstation.)
