1401 CARRIAGE CONTROL AND SPECIAL FUNCTION CHARACTERS

The following list includes all characters which are interpreted by the 1401 print program as carriage control characters. The carriage control feature is made active by having sense switch D in the inactive position. These characters are significant only when encountered in the first print position. When used for carriage control, the character itself is not printed.

<u>Character</u>	<u>Code</u>	<u>Function</u>
blank	20	Print (normal)
A	61	" "
B	62	Skip one line and print (double space)
O	12	" " " " " " " "
C	63	Skip two lines and print (triple space)
D	64	Skip three lines and print (quadruple space)
E	65	Restore
1	01	"
F	66	Skip to punch in channel x and print
G	67	Skip to punch in channel y and print
2	02	Program control word (control word for program load)
3	03	Edit data
4	04	Load onto tape (instead of printer)
5	05	Program Load (on-line program load)
